Buckingham Nursery

BUCKINGHAM

Bucks County, Pa.

Propagation Branch - Wyncote, Pa.

Azaleas - Rhododendrons

Broadleaves

AZALEAS

*Amonena—Flowers rosey purple in dense masses. Foliage assumes a pleasing bronze tint in fall.

*Amonena Coccinea—Same as Amonena except in color which is firey red.

Bengiri—Bright red, rather fast grower with narrow leaves.

Bridesmaid—Salmon pink in large clusters. Small neat foliage.

Camp Fire—Large flowering deep red.

Corsage—Large single Orchid.

Claret—Single claret red.

*Carol Bells—Shell pink, shading to deep pink at centers.

Delicatissima—White, tinged and edged with lilac.

Flame—Bright madder red with copper undertone. Tall growing.

Hinodegiri—Scarlet red. The most popular azalea grown.

Hinomayo—Beautiful soft pink.

*Hinomayo Fl. Pl.—Same as above but
“hose-hose”.

Herbert—A free blooming magenta red
azalea.

La Roche—Magenta red . One of the earli-
est of the Japanese type to bloom.

Ledifolia alba—Large white and late bloom-
ing.

Maxwelli—Large, deep red. Broad compact
grower.

Macrantha—Salmon red, large flowering.
Late blooming.

Mountain Laurel—Single, white edged with
pink.

Old Faithful—Single, orchid pink.

*Pink Pearl—A beautiful shade of tinted
pink. An excellent azalea for forcing, also
for outside planting.

Poukhanensis—Rose pink to rose purple.
Early flowering and hardy in New England.

*Rosebud—Rose pink and double.

*Royalty—Bright purple.

*Snow—Pure white, a good forcing plant or

for out-side planting. One of the best whites.

*Salmon Beauty—Salmon pink in large clusters.

Susan—Single, salmon pink. A free bloomer and hardy.

Sherwoodi—Large orchid. A strong grower.

Vesuvius—Bright salmon red.

Yodogawa—Purplish pink, in early spring.

The following list of plants are azaleas and broad leaf evergreens not rare but too little known in the average garden.

Azalea Damask Rose—Large white with markings of pale rose to deep crimson. Blooming size plants.

\$1.00

Azalea Lady Lilac—Handsome, fragrant clear lilac flowers in large clusters.

1 yr. plants **35c**

A. Ghent Hybrids—Mixed colors, ranging from yellow to orange. Early spring.
